DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-13, drawn to a storm shield, classified in class 160, subclass 238.
 - II. Claims 14-15, drawn to a vehicle mounted storm shield, classified in class 296, subclass 98.
 - III. Claims 16-21, drawn to a shield system, classified in class 52, subclass 3.

The inventions are distinct, each from the other because of the following reasons:

2. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.
3. Inventions I and II and III are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions are not disclosed as capable of use together since I relates to a shield, II relates to a vehicle mounted shield, and III relates to a shield system for an pad area, and the inventions have different modes of operation (one coupled to equipment, one mounted on a vehicle, and one mounted on a pad area) and different effects.
4. A telephone call was made to Robert Klauzinski on Monday, May 14, 2005 to request an oral election to the above restriction requirement, but did not result in an election being made.

Art Unit: 3612

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Hilary Gutman whose telephone number is 571-272-6662.
